PLEASE RUN SUMP PUMPS OUTSIDE!

In recent weeks, PeopleService has noticed a huge increase in the volume of water coming from the City's sanitary sewer system into our sewage treatment pond. This is likely caused by residents running their sump pumps into their sanitary sewer. This costs us all a lot of money to treat clean water, plus it is illegal. Please, run your sump pump hose onto your lawn. Don't like the look? Consider burying your hose.

ENERGY SAVING IDEA!

Did you remember to clean the coils of your central or window air conditioner before the start of summer? Cleaning or replacing your air conditioner filter monthly during the summer will improve efficiency and increase the life of your air conditioner unit.

Captioned Telephone (CapTel™)

CapTel is an amplified telephone and relay captioning service that allows people who are hard of hearing to see word-for-word captions of their telephone conversation on a bright, easy-to-read display window built into the CapTel phone, while also listening to what is being said using their residual hearing (much like TV captioning). Requires a CapTel phone. If you wish to contact a person who uses a CapTel phone, dial: 1-877-243-2823.

Voice Carry Over (VCO): 1-877-627-3024

Allows a person who has difficulty hearing on the phone to voice their conversations directly to the other person on the call. The CA then types the other person's response to the VCO user. Requires a special telephone.

Two-Line VCO: 1-866-855-4611

Allows a VCO user to use one telephone line for speaking directly to the other person, while the second line is used to receive the CA's typed response from the other person. This enhanced feature provides a more natural flow of conversation without the pauses of single-line VCO calls. Additional service and equipment requirements.

Hearing Carry Over (HCO): 1-800-627-3529

Allows a person who can hear but who has very limited or no speech capability to make and receive phone calls. The HCO user types his/her conversation for the CA to read to the other person, and listens directly to the other person's response. Requires a special telephone.

Text Telephone (TTY): 1-800-627-3529

Allows a person who is deaf, hard of hearing, or speech disabled to use a TTY to communicate with the other person on the call.

Standard Telephone: 1-800-627-3529

A hearing person may use a standard telephone to place a relay call and easily converse with a person who is deaf, hard of hearing, or speech disabled.

Speech-to-Speech (STS): 1-877-627-3848

Allows a person who has difficulty speaking or being understood on the phone to communicate using his or her own voice or voice synthesizer. The CA revoices the words of the person with a speech disability so the other person on the call can understand them. No special telephone is required.

Computer (ASCII): 1-800-627-3529

Computer users can also access Minnesota Relay. Set your communications software to the following protocols: speeds ranging from 300 to 2400; 8 Bits; No Parity; 1 Stop Bit; Full Duplex. When calling at a rate of 300 or below, follow the above using Half Duplex.

Spanish Relay: 1-877-627-5448

The CA relays calls between a Spanish speaking person with a hearing or speech disability and a Spanish speaking hearing person.

900 Pay-Per-Call Services: 1-900-230-3324

Allows a relay user to connect to any pay-per-call service.
