DATA PRIVACY

The EDA is subject to Minnesota Statutes Chapter 13 (the “Minnesota Government Data Practices Act”). Under the Act, when businesses apply for a loan from the EDA, the financial information about the business, including financial statements and income tax returns are all private data. However, should the business receives a loan from the EDA; the business name, amount of loan, interest rate and repayment term of the loan would become public data, meaning the information would be released if requested.

APPLICANT(S) SIGNATURE(S)
