*Putting the Sun
to work for You!*

COMMUNITY SOLAR GARDEN

Renewable energy brought to you
by Barnesville Municipal Power

WHAT IS A COMMUNITY SOLAR GARDEN?

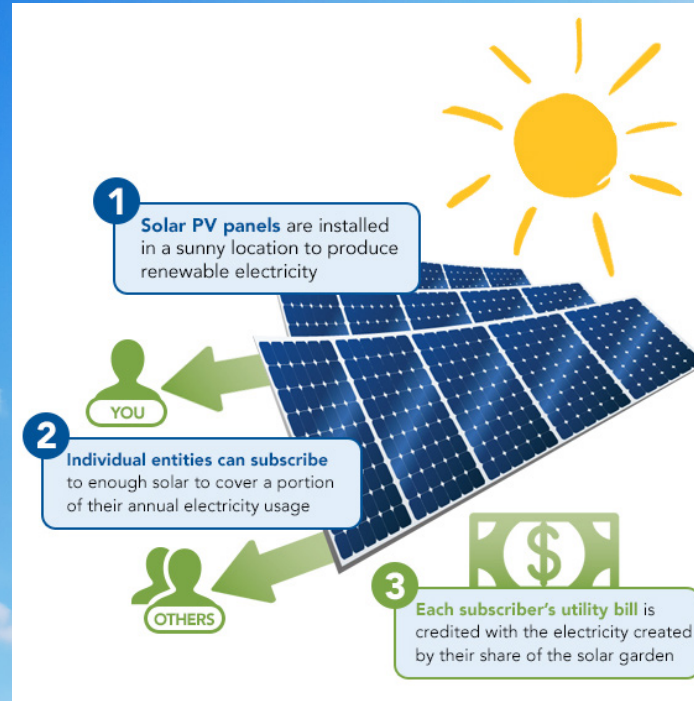

A Community Solar Garden is ideal for customers who want to harness the power of the sun's energy, but lack the suitable site for a solar array on their own. It is also great for those who want to hedge against future energy prices without installing their own system.

HOW IT WORKS:

Customers may purchase one or more panels of the initial 80 panel array.

- The kWh production from each panel will be credited to your monthly electric bill.
- The contract for ownership is 20 years.
- Available to both residential and commercial customers
- Barnesville Municipal Power will be responsible to design, maintain and interconnect the solar array.

NOW YOU CAN CHOOSE THE RENEWABLE ENERGY OPTION!

Partial funding for this project was provided by Clean Energy Resource Teams (CERTS). Learn more about CERTs at www.mncerts.org.

COSTS/PRODUCTION

- Each 330W panel is \$775
- Payment must be made in full
- Each panel is estimated to produce 496 kWh per year (estimated credit of \$50 per year)
- Consult your tax advisor to see if you are eligible for the 30% Federal Tax Credit

PARTICIPATING IS EASY!

There is a limited number of panels available. The panels are reserved upon receipt of full payment.

Application forms available at barnesvillemn.com or you can stop by City Hall at 102 Front Street North; Barnesville, MN 56514
